

Visual Processing

- Activities to develop / strengthen visual processing:

These activities will help you to take in and remember what you see.

1. 'Spot the Difference' (to develop visual processing).

(These can be found in magazines, on the Internet or in 'Spot the Difference' books.)

2. Hidden Pictures

www.highlightsteachers.com/teachers-toolbox/hidden-pictures

www.highlightskids.com/GamesandGiggles/HiddenPics/HiddenPics

3. Tray game:

- Memorising objects on a tray to recall without looking (visual memory).
- Studying objects on a tray before objects are moved, removed or added (visual processing and memory).

4. Drawing line diagrams or pictures accurately from memory:

- Increase the complexity of the diagram/picture.
- Decrease the time allowed studying the picture.
- Increase the time gap between looking at the picture and recalling it.

5. Completing the missing half of symmetrical pictures:

- While looking (to develop visual / kinaesthetic processing).
- From memory (to develop visual memory).

6. Finding real words hidden in a line of letters.

e.g. slmfathgtabledgbigpgud

slmfathgtabledgbigpgud
