Open Evening 2016

Redruth School's Open Evening made a real splash with parents and children, who flooded in to look at the facilities which the school has to offer. With explosions in Science, Drama productions, Maths puzzles, Macbeth in English, historical characters in History and erupting volcanoes in Geography - there was plenty for everybody. The PE team had children climbing the walls, and there were many other activities throughout the school. As parents left, many commented that it has been incredibly interesting. Mrs Marks said, "The students at Redruth are so interested in their school and appear to be so happy in their activities, they were very informative showing us around. It was a great evening!"

Summer School 2016

This year's summer school was an incredible success. Students due to enter Year 7 at Redruth School in September took part in a range of activities. Students enjoyed a visit to the Eden Project, as well as kayaking, mountain biking, bushcraft skills and sports. The emphasis was on team building and making friends. Students were delighted with every activity and encouraged each other during challenging events.

Youth Grand Prix

Sam Medlyn, Year 9, competed at the Prudential Ride London Youth Grand Prix held at the Olympic Velopark in July. Sam competed as part of the South West team. He had a brilliant race and finished in 13th place. His team came 5th overall. He was selected for an interview after the race, which appeared in The West Briton.
